

# 2006 National Heart Failure Workshops

*Shaping the Future of Heart Failure Management in Canada*

Lake Louise, Alberta  
Fairmont Chateau  
Lake Louise  
Mt. Temple Ballroom

**Tuesday, March 28, 2006**

4:30 p.m. - 6:20 p.m. (Reception at 4:00 p.m.) Chair: **Jonathan Howlett, MD**

## Agenda

The CCS is coming to your community to deliver the first in a series of National Heart Failure workshops. The CCS is inviting health care professionals in your community and from across Canada to get involved in the future of heart failure management.

Physicians, trainees, nurses, and pharmacists are invited to participate in this innovative and interactive workshop. During this 2-hour hands-on session, your job will be to develop strategies for optimal implementation of the *2006 CCS Heart Failure Consensus Recommendations*. Your work will contribute directly to the establishment of benchmarks for the care of your patients.

The CCS is making a long-term and ongoing commitment to the process of establishing, promoting, and assessing evidence-based recommendations for the treatment of heart failure. The success of this process depends on your involvement, so please join us on March 28, 2006 in Lake Louise, Alberta.

**4:00 p.m. - 4:30 p.m.**
